

ACCA's IFRS Qualification – the DipIFR

Delivered in the USA by ATC International and ContractualCFO (CCFOsox)

International Financial Reporting Standards are being implemented throughout the world, now. Finance professionals simply must be ready. **ATC International** is working with CCFO to offer professionals in the USA the chance to study for and obtain ACCA's Diploma in International Financial Reporting Standards (DipIFR).

ACCA's DipIFR

ACCA (UK, CPA equivalent) has introduced the first accredited IFRS qualification in the world – the Diploma in International Financial Reporting. It is the ideal IFRS qualification for experienced finance professionals who may already hold a non-IFRS compliant accounting qualification. In the course of studying for the DipIFR, candidates will;

- understand the international regulatory framework of financial reporting
- be able to apply IASs and IFRSs to practical situations
- train to prepare financial statements in accordance with IASs, IFRSs and pronouncements of the Standing Interpretation Committee
- train to prepare group financial statements including subsidiaries, associates and joint ventures

For more information on ACCA's DipIFR, visit www.accaglobal.com/students.dipifr

ATC International has exclusive global approval from ACCA to produce the comprehensive study material for the DipIFR. Our study material is designed to help prepare candidates for the examination, if they choose to take it, and to provide a comprehensive understanding of practical IAS and IFRS implementation for everyone who uses it.

In addition, we are working with CCFO to promote and deliver DipIFR classroom courses and to offer tailored in-company IFRS training programs to meet the growing demand for IFRS knowledge in the United States.
